

## **Grievous Mistakes, Once and you Fail the Test**

- 1) Hands always on the steering wheel and no crossing hands, never use the bright light or wave hand to somebody as a signal.
- 2) Do not go on top of the pavement, Painted traffic island, roundabout, continuous white line or single, double yellow line.
- 3) Examiner touches; Pedals, Steering wheel you are failed.
- 3) Five same small mistakes, Example; like handbrake up without button, you indicate an exit before the one you go out, Failed.
- 4) Over speeding, under speeding.
- 5) No entry, No stopping completely, no stopping on red Traffic lights.
- 6) One metre away from the parking cars, Drive very slowly especially People and Stop if necessary.
- 7) A car parked can pull out or open the door, people coming from between the cars.
- 8) Never stop in front of an exit, Always plan ahead to stop before, first stop before the exit then handbrake and free.
- 9) In two lane road always drive by the left.
- 10) Do not endanger other cars when changing lanes always use M, S, P, S, L. MIRROR, SIGNAL, POSITION, SPEED, LOOK.
- 11) 50 Meters away from traffic lights or zebra always put your foot stand by on the brake and look at the mirrors, 3 meters away from zebra or traffic lights continue.
- 12) Do not stop on a junction box or stop before and give way.
- 13) Overtake if you must but very cautious use M, S, P, S, L. Never overtake on a Zebra, Blind corners or up hills.
- 14) Zebra crossing; when people are crossing always put hand break and free and wait for people to be on the other pavement before you move.
- 15) In slow traffic always keep the distance; you have to see the rear tires of the car in front of you. And in speed like 60km use the two second rule in dry weather or 4 second rule in *wet* weather.
- 16) In tunnel; never use sunglasses and no overtake.

## **Question you need to know before the Test.**

- 1) 2 Second rule and 4 second rule.
- 2) Breaking distance; 32kmh, 48kmh, 64kmh, 80kmh.
- 3) One meter away from the cars and more from people.
- 4) Cockpit Drill
- 5) Tire Check; crack, baubles, tire tread minimum 1.6mm, air pressure front 30psi and rear 28psi. Check every week in the morning.
- 6) Lights; side lamps, debt lights and bright lights.
- 7) Hands Controls; L,R indicator, Switches .....
- 8) Why we don't do clutch coasting?
- 9) Engine Bay and Spare tire.
